PROJECT PROPOSAL

I. PROJECT DESCRIPTION

Project Title:	CatalysTech IT Solutions Driving Innovation in IT Development and Services
Type of Project:	Production Services
Project Proponents:	Computer Science Department
Project Coordinator:	Gene Boy J. Pitos II
Date of Implementation/Duration:	AY 2026
Budget Requested:	P 342,090.00 STF

III. RATIONALE

The Bachelor of Science in Computer Science (BSCS) program has long been recognized as a training ground for future innovators in software engineering, systems design, and applied information technology. Yet in today's fast-evolving digital economy, classroom instruction alone is no longer sufficient. Students must be exposed to real production environments where they can transform technical knowledge into tangible outputs, gain operational experience, and develop entrepreneurial skills.

To address this need, the BSCS program proposes the establishment of CatalysTech IT Solutions: Driving Innovation in IT Development and Services—a BSCS Production and Services Unit managed by its faculty, staff, and students. This initiative combines IT solutions development with creative merchandising, offering services such as customized T-shirt and lanyard printing, mug production, and digital outputs, alongside software development, systems integration, and IT support. It is envisioned as a sustainable academic-service platform that strengthens program relevance while supporting institutional growth.

Through CatalysTech, BSCS students will engage in authentic projects that sharpen technical mastery and build competencies in cost management, workflow operations, and client relations—skills that are indispensable in the context of Industry 4.0. The project also integrates Gender and Development (GAD) principles by promoting inclusive participation and creating gender-responsive outputs that serve diverse communities.

By merging instruction, innovation, and managed production, CatalysTech positions the BSCS program as more than an academic offering. It becomes a center of excellence in applied IT services and creative production, contributing to institutional competitiveness, student development, and community engagement.

IV. PROJECT OBJECTIVES

The project *CatalysTech IT Solutions: Driving Innovation in IT Development and Services* aims to:

1. Establish a BSCS Production and Services Unit integrating IT solutions with creative merchandising to strengthen the program's applied learning and service capacity.
2. Foster entrepreneurial and operational skills among BSCS students through involvement in production management, cost analysis, and client relations, preparing them for careers in both industry and self-driven ventures.
3. Promote inclusivity and gender responsiveness by incorporating Gender and Development (GAD) principles, ensuring equitable participation of men, women, and underrepresented groups in technical and production roles.
4. Support institutional sustainability by positioning the BSCS program as a driver of innovation, service delivery, and resource generation through managed production and IT solutions.

V. PROJECT DESCRIPTION

1. Budget of this project will be charged to STF Fund.
2. Supplies and materials for the project will be prepared.
3. The BSCS Program faculty and students will lead initially from the preparation of the proposal including the identification of committees of the project.

VII. DETAILED BUDGET REQUIREMENT

PARTICULARS	UNIT OF MEASURE	QUANTITY	Unit Cost	Total cost
Job Order Personnel	mos	12	15,393.33	184,720.00
Desktop Computer	set	1	48,000.00	48,000.00
VEVOR Vinyl Cutter Machine, Upgraded 28 Inch Paper Feed Cutting Plotter Bundle, Adjustable Force & Speed Vinyl Printer with Powerful Stepper Motors, Signmaster Software Compatible with Windows System	pc	1	15,000.00	15,000.00
C30 Desktop Glue Binding Machine (Upgraded model) – supports A4, Short (Letter 8.5×11 in), and Long (Legal 8.5×13 in); binding capacity 30 mm (≈300 sheets)	unit	1	15,000.00	15,000.00
Hot Melt Adhesive Granules (EVA glue pellets) – transparent or milky white, fast-melting, strong adhesion, universal for thermal binders	kg	2	700.00	1,400.00
Binding Covers (Thermal Cover Sets) – clear PVC front + white or colored cardstock back; sizes: A4 (210×297 mm), Short (8.5×11 in), Long (8.5×13 in), 200–250 gsm	ppcs	100	15.00	1,500.00
Textured/Colored Cardstock (optional) – 220–250 gsm, cut to A4, short, and long	sheets	50	10.00	500.00
Paper Cutter/Guillotine (A3 size recommended) – heavy-duty, can trim A4, short, and long	unit	1	300.00	300.00
Heat Transfer Vinyl (HTV), assorted colors (solid, glitter, metallic), 12"x5ft rolls	rolls	10	250.00	2,500.00
Sublimation Ink, CMYK set (Epson-compatible), 100 ml bottles	set	2	1,200.00	2,400.00
Sublimation Paper, A4 (100–120 gsm) & A3 (120–130 gsm)	100 sheets	2	400.00	800.00
DTF Transfer Film, PET sheets, A4/A3 size	50 sheets	6	600.00	3,600.00
DTF Adhesive Powder, white, 500 g–1 kg	1 pack	1	700.00	700.00
Blank T-Shirts, cotton (for HTV/DTF) and polyester (for sublimation), sizes XS–XXL	pcs	100	120.00	12,000.00
Blank Sublimation Mugs, ceramic, 11 oz	pcs	24	90.00	2,160.00
Blank Lanyards, sublimation-ready polyester, 15–20 mm width, with hook	pcs	50	25.00	1,250.00
Teflon Sheets, heat-resistant, A3 size or 16"x20"	pcs	2	250.00	500.00
Parchment Paper, heat press use, pack of 100 sheets	pack	1	250.00	250.00
Heat-resistant Tape, 8–10 mm width rolls	rolls	2	200.00	400.00
Clear Polybags, resealable, 10×13 in & 12×15 in	pcs	100	5.00	500.00
Mug Carton Boxes, white corrugated, single mug size	pcs	36	35.00	1,260.00
Bubble Wrap, roll (50 cm x 10 m)	rolls	1	250.00	250.00

Paper Bags (Optional), medium size, plain or branded	pcs	50	15.00	750.00
E-wallet	set	1	5,500.00	5,500.00
Web & Domain Hosting	set	1	25,000.00	25,000.00
Laser Pointer	pcs	10	750.00	7,500.00
External Hardisk Drive	pc	1	4,500.00	4,500.00
High-Capacity Power Bank 60000mAh 22.5W	pc	1	3,850.00	3,850.00
			TOTAL	**342,090.00**

IX. OUTPUT

The project is expected to establish a functional BSCS Production and Services Unit that delivers IT solutions and creative merchandise, develops student technical and entrepreneurial skills, promotes inclusive participation, and contributes to program and institutional sustainability.

Prepared by:

GENE BOY J. PITOS II
BSCS, Production Coordinator

Noted by:

CHRISTINE W. PITOS, MSCS
BSCS Program Coordinator

Certified as to appropriation/obligation:

EMELITA A. SINDAY
Budget Officer
